Call for initial positions 2

3. Potential Key Environmental Issues

4. Data collection

5. Techniques to consider in the determination of BAT and emerging techniques

Initial positions udtrykkes ved kommentering i stort excelark

No.	KEI candidates	Substance referred in sources (acronyms of sources from section 3.2)	EIPPCB proposal	Substance considered as KEI (y/p/n) ▼	Please provide information on BATIS
1	pH	TXT BREF, DE, ES, IE, IT, PT, SK, UK, USA, ZDHC	Not to include as KEI but parameter to be included in data collection as contextual information	no	pH may not be observed in treated water
2	Temperature	TXT BREF, DE, ES, IE, IT, PT, SK, UK, ZDHC	Not to include as KEI but parameter to be included in data collection as contextual information	no	Here and
3	Conductivity	TXT BREF, DE, ES, IE, IT, PT, SK, UK, ZDHC	Not to include as KEI but parameter to be included in data collection as contextual information	no	
4	TSS - Total suspended solids	TXT BREF, BE, DE, ES, FR, IE, IT, PT, SK, UK, USA, IFC-WB, ZDHC	To include as KEI	yes	
5	COD and/or TOC	TXT BREF, BE, DE, ES, FR, IE, IT, PT, SK, UK, USA, IFC-WB, ZDHC, E-PRTR	To include as KEI	yes	
6	BOD ₅	TXT BREF, DE, ES, IE, IT, PT, SK, UK, USA, IFC-WB, ZDHC	Not to include as KEI but parameter to be included in data collection as contextual information	no	
	Colour / Spectral absorption		Not to include as KEI but

TWG Kick off møde

Draft Agenda

Tuesday, 12 June 2018

09:00 – 11:00	- Welcome - Industrial Emissions Directive - Sevilla process for the drawing up and review of BREFs - Introduction to the TXT BREF
11:00 – 11:15	Coffee break
11:15 – 13:30	Discussion on BP issues
13:30 – 14:30	Lunch
14:30 – 16:30	Discussion on BP issues
16:30 – 16:45	Coffee break
16:45 – 18:30	Discussion on BP issues

Wednesday, 13 June 2018

09:00 – 11:00	Discussion on BP issues
11:00 – 11:20	Coffee break
11:20 – 14:00	Discussion on BP issues
14:00 – 15:00	Lunch
15:00 – 16:30	Discussion on BP issues
16:30 – 16:45	Coffee break
16:45 – 18:30	Discussion on BP issues

2.2 Structure of the BREF and of its BAT conclusions

Original EIPPCB proposal
Proposal 12: The EIPPCB proposes to use the structure of the current TXT BREF.
Summary of initial positions
<ul style="list-style-type: none"> • 13 out of 16 IPs agree with the proposal, 1 partly agrees, none disagrees and 2 do not provide answers. • The main comments of the IPs are as follows: <ul style="list-style-type: none"> - Coating and laminating can be a significant source of emissions to water or air and should be further described (including the backing of carpets as well as the coating of curtains or fabrics, e.g. for seats or tents) (SE). - Chapter 2 should first be organised according to the type of raw materials used (i.e. cellulose fibres, animal fibres and synthetic fibres) and then, at the second level, according to the process with the same structure for each type of raw material (fibre characteristics, fibre resources, fibre preparation, yarn manufacturing, fabric production, pretreatment, dyeing, printing, high finishing, coating and lamination, washing, drying) (CZ).
EIPPCB assessment
<ul style="list-style-type: none"> • The TWG broadly supports the proposal. • Section 2.10 of the current TXT BREF about coating and laminating could be extended to address more processes, if relevant information is provided. • Carpet back-coating is one type of coating and the related Section 2.11 in the current TXT BREF could be moved under Section 2.10 on "Coating and laminating". • Structuring the first level of the headings in Chapter 2 by raw material would imply considerable reshuffling of the information and possibly lead to repetitions where processes are the same for different types of raw material.
EIPPCB proposal
<ul style="list-style-type: none"> • To change the original EIPPCB proposal as follows: to generally use the structure of the current TXT BREF, and to include minor adaptations, if deemed appropriate.

Konklusion emne for emne

TXT BREF review – Kick-off Meeting

Seville, 12 – 15 June 2018

Conclusions

European IPPC Bureau

BP 2.3.4.1.6

KEI air – Tetrachloroethylene (PER) (1/1)

~~Not~~ To include tetrachloroethylene (PER) as a KEI for solvent-based wool scouring and dry cleaning and not to collect data on PER emissions to air.
