

6. Evaluation of health hazards by exposure to thallium and thallium compounds and estimation of quality criteria in soil and drinking water. Institut for Fødevarerikkerhed og Toksikologi, Veterinær og Fødevaredirektoratet, maj 1999. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
7. Evaluation of health hazards by exposure to tin and inorganic compounds and estimation of a quality criteria in drinking water. Institut for Fødevarerikkerhed og Toksikologi, Veterinær og Fødevaredirektoratet, august 2000. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
8. Evaluation of health hazards by exposure to nonylphenol and nonylphenolethoxylates and estimation of quality criteria in soil and drinking water. Del af Miljøprojekt, 512, 2000: Toxicological Evaluation and Limit Values for Nonylphenol, Nonylphenol Ethoxylates, Tricresyl Phosphates and Benzoic Acid. Institut for Fødevarerikkerhed og Toksikologi, Veterinær og Fødevaredirektoratet for Miljøstyrelsen.
9. Evaluation of health hazards by exposure to acrylonitrile and estimation of limit values in ambient air, drinking water and soil. Instituttet for Toksikologi, Levnedsmiddelstyrelsen, 1995. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
10. Evaluation of health hazards by exposure to formaldehyde and estimation of a limit value in ambient air. Del af Miljøprojekt, 511, 2000: Toxicological Evaluation and Limit Values for Methyl Tertiary-butyl ether (MTBE), Formaldehyde, Glutaraldehyde and Furfural. Institut for Fødevarerikkerhed og Toksikologi, Veterinær- og Fødevaredirektoratet for Miljøstyrelsen.
11. Evaluation of health hazards by exposure to styrene and estimation of quality criteria in soil and drinking water. Instituttet for Toksikologi, Levnedsmiddelstyrelsen, november 1994. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
12. Benzin- og dieselolieforurenede grunde. Miljøprojekt nr. 223, 1993. Miljøstyrelsen.
13. Tributyltin compounds (TBT). Evaluation of health hazards and proposal of health based quality criteria for soil and drinking water. Environmental Project No. 1524, 2013. DTU Fødevareinstituttet for Miljøstyrelsen.
14. Evaluation of health hazards by exposure to mononitrophenols and estimation of quality criteria in soil and drinking water. Instituttet for Toksikologi, Levnedsmiddelstyrelsen, december 1994. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
15. Evaluation of health hazards by exposure to dinitrophenols and estimation of quality criteria in soil and drinking water. Instituttet for Toksikologi, Levnedsmiddelstyrelsen, december 1994. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
16. Evaluation of health hazards by exposure to trinitrophenols and estimation of quality criteria in soil and drinking water. Instituttet for Toksikologi, Levnedsmiddelstyrelsen, december 1994. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.

17. Evaluation of health hazards by exposure to nitrobenzene and estimation of limit values in ambient air, drinking water and soil. Institutttet for Toksikologi, Levnedsmiddelstyrelsen, 1995. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
18. Evaluation of health hazards by exposure to n-butyl acetate and isobutyl acetate and estimation of quality criteria in soil and drinking water. Institutttet for Toksikologi, Levnedsmiddelstyrelsen, 1994. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
19. Evaluation of health hazards by exposure to diethyl ether and estimation of quality criteria in soil and drinking water. Institutttet for Toksikologi, Levnedsmiddelstyrelsen, 1995. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
20. Evaluation of health hazards by exposure to 5-Methyl-2-hexanon and estimation of limit values in ambient air drinking water and soil. Institutttet for Toksikologi, Levnedsmiddelstyrelsen, 1996. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
21. Evaluation of health hazards by exposure to methyl isobutyl ketone and estimation of quality criteria in soil and drinking water. Institutttet for Toksikologi, Levnedsmiddelstyrelsen, december 1994. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
22. Naphthalen. Vurdering af sundhedsmæssige aspekter ved eksponering samt forslag til kvalitetskriterier i luft, vand og jord. Institutttet for Toksikologi, Levnedsmiddelstyrelsen, 1992. Baggrundsrapport udarbejdet for Miljøstyrelsen. Upubliceret.
23. Toluene. Evaluation of health hazards and proposal of health based quality criteria for drinking water and soil. Environmental Project No. 1874, 2016. DTU Fødevareinstitutttet for Miljøstyrelsen.
24. Toxicological Evaluation and Limit Values for DEHP and Phthalates, other than DEHP. Environmental review, 6/1996. Institutttet for Toksikologi, Levnedsmiddelstyrelsen for Miljøstyrelsen.
25. Benzotriazole and Tolyltriazole. Evaluation of health hazards and proposal of health based quality criteria for soil and drinking water. Environmental Project No. 1526, 2013. DTU Fødevareinstitutttet for Miljøstyrelsen.
