# I.I. Competent Authorities

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### I. Application context

### I.I. Competent Authorities (ref. EUTR Article 7)

*1 How many Competent Authorities have been designated at national and sub-national level for the application	ation of the
EUTR in your country?	

1

\*2 Which national legislation designates the Competent Authority/ies (please also provide the Article number)?

Timber Act no. 1225; 18/12/2012, Article 1 and 6 (https://www.retsinformation.dk/forms/r0710.aspx? id144423)

Ministerial Order no. 95; 28/01/2019, Article 34 (https://www.retsinformation.dk/Forms/R0710.aspx?id206571)

Please provide a hyperlink to the national legislation or/and upload PDF. If available, please provide this in English, if this is not available, please provide it in your national language.

3 Hyperlink(s) to the national legislation:

Only Danish versions available # URL: https://www.retsinformation.dk/Forms/R0710.aspx?id206571 # URL: https://www.retsinformation.dk/forms/r0710.aspx?id144423

4 Upload PDF(s) with the national legislation:

## I.II. Collaboration

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### I. Application context

I.II. Collaboration with other Competent Authorities, the Commission, authorities of third countries or between authorities within a Member State to ensure the implementation and enforcement of the EUTR (ref. EUTR Articles 8(4)), 10(2), 12 and 19(3))

The implementation and enforcement of the EUTR nationally and across implementing countries requires the effective collaboration of different authorities to ensure comprehensive risk based planning of checks and successful enforcement measures.

'Collaboration' refers to the **active exchange** (i.e. the reception from and provision to other authorities) **of raw data** (e.g. customs or tax declaration data) **or of more processed information** (e.g. operator names or information on particular risks in countries of origins) that can be used for the planning of checks, performance of ad hoc checks or the coordination of EUTR implementation or enforcement action. It also refers to working together on **joint checks or coordinated implementation or enforcement action**. Collaboration frequency, partners, subjects and related legal constraints serve as indicators for assessing the intensity, quality, and scope of the collaboration.

1 Select the frequency with which the Competent Authority collaborates with other authorities through the **exchange of data/information** to implement and/or enforce the EUTR in relation to the obligations for operators, traders and monitoring organisations (duty-holders):

	Frequently (at least monthly)	Occasionally (less frequently than monthly)	Never
*European Commission	0	•	0
*EUTR Competent authorities of other Member States	0	•	0
* Authorities of <b>Third countries</b>	©	•	0
* National or sub-national authorities: Customs	©	•	0
* National or sub-national authorities: Police	0	•	0
* National or sub-national authorities: Tax authorities	0	•	0
* National or sub-national authorities: <b>Business</b> inspectorate or similar	0	0	•
National or sub-national authorities: Other	0	0	0

3 The **exchange of data/information**, relates to the obligations of the following duty holders (domestic and importing operators, traders, and monitoring organisations):

	Operators - domestic timber/ timber products	Operators - imported timber/ timber products	Traders	Monitoring organisations
* European Commission		<b>V</b>		

*EUTR Competent authorities of other Member States	V	
Authorities of <b>Third</b> countries	<b>▽</b>	
National or sub-national authorities: <b>Customs</b>	<b>V</b>	
National or sub-national authorities: <b>Police</b>	<b>▽</b>	
National or sub-national authorities: <b>Tax authorities</b>	<b>V</b>	

4 Select the frequency with which the Competent Authority collaborates with other authorities through **joint checks/inspections/enforcement actions** to implement and/or enforce the EUTR in relation to the obligations for operators, traders and monitoring organisations (duty-holders):

	Frequently (at least monthly)	Occasionally (less frequently than monthly)	Never
*European Commission	0	0	•
*EUTR Competent authorities of other Member States	0	0	•
Authorities of <b>Third countries</b>	©	0	•
National or sub-national authorities: Customs	0	•	0
National or sub-national authorities: Police	0	•	0
National or sub-national authorities: <b>Tax</b> authorities	0	0	•

5 The **joint inspections/ enforcement actions** relate to the obligations for the following duty holders (domestic and importing operators, traders, and monitoring organisations):

·	Operators - domestic timber/ timber products	Operators - imported timber/ timber products	Traders	Monitoring organisations
National or sub-national authorities: <b>Customs</b>		V		
National or sub-national authorities: Police		V		

6 Specify why your Competent authority/ies did **not collaborate through exchange of data/information** with other authorities to implement and/or enforce the EUTR in relation to the obligations for operators, traders and monitoring organisations (duty-holders):

·	For the implementation and /or enforcement of the EUTR, there was <b>no need to exchange data/ information</b> with:	Due to <b>restrictions</b> under the provisions of <b>EU</b> <b>legislation</b> regarding the exchange of data/ information with:	Due to <b>restrictions</b> under the provisions of <b>national</b> <b>legislation</b> regarding the exchange of data/ information with:	
National or sub- national authorities: <b>Business</b> <b>inspectorate</b> or similar	•	©

# I.III Records of checks

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### I. Application context

### I.III. Records of checks (ref. EUTR Article 11)

Keeping records of checks is necessary for carrying out effective inspections and enforcement actions, and facilitates check planning and reporting, as well as for giving access to environmental information to the general public or upon request. Data related to checks under the EUTR kept in the records are considered environmental information. As a rule, access to environmental information has to be granted to anyone requesting it, unless this information falls under one of the exceptions to this rule, such as confidentiality of proceedings protected by law, ongoing proceedings, commercial information and personal data.

1 Please specify which of the information on the following duty holders (operators, traders, and monitoring organisations) is not retained in the Competent authorities (CA's) records. Of the information retained, indicate, which is made available under Article 11(2) and Directive 2003/04/EC on access to environmental information, (i.e. when none of the exceptions apply) and in which way:

	This information is <b>not</b> retained in the CA's record	This information is (partially) made publicly available	This information is (partially) made available only upon request	None of this information is made available due to restrictions under the provisions of <b>national</b> legislation going beyond the EU legislation
* Name and address of the company	0	0	•	0
* Reason for check (e.g. risks identified in check plan, proximity to other operator, substantiated concern, biannual check)	©	•	•	•
* Nature of the check /inspection (e.g. purely desk- based, desk-based and onsite, joint inspections)	0	0	•	•
*Concerns/ infringements identified during check (e.g. potential/confirmed placement of non-negligible risk timber on the market)	0	0	0	•
* Enforcement action decisions (e.g. Notice of Remedial Action or similar Interim measures, or penalties)	0	0	•	©

* Name and address of the supplier company/ies (applies to operators and traders only)	•	0	0	©
* Name and address of the buyer company/ies (applies to operators and traders only)	•	0	0	©
* Name and address of operators using MO services (applies to MO's only)	•	0	0	©
Other (please specify in comments below)	0	0	0	©

2 Please provide the name and, where available, a hyperlink to the legislation:

Forvaltningsloven; LBK nr 433 af 22/04/2014 (in Danish only) Offentlighedsloven; LBK nr 145 af 24/02/2020(in Danish only)

#### 3 Comments:

No checks made on Monitoring Organisations (none based in DK) No checks have so far been conducted on traders.

# I.IV. Reaching, raising awareness and building capacity

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### I. Application context

# I.IV. Reaching, raising awareness and building capacity of different target audiences regarding EUTR (ref. EUTR Article 13)

For an effective and efficient application of the EUTR, the awareness and capacity of the duty-holders (operators, traders, and monitoring organisations), as well as of those involved in compliance verification and enforcement is crucial. Also civil society, in particular consumers, should be aware of the risk of illegally harvested timber/timber products being placed on the market and of the measures taken to address this issue. The type of information campaign, the level of involvement of the audience and estimated size of the audience can serve to assess, in how far which audience is reached, made aware and/or its capacity to comply with or verify compliance with the EUTR.

For the purpose of reporting, three levels of attaining audiences are differentiated:

Reaching an audience means information is being received by that audience. It is a necessary first step of awareness-raising and can indicate possible awareness raising. However, proof of reaching an audience, like reception of mails, visits of a website, viewing of an emission, cannot serve as a proof of awareness raising. Raising awareness of an audience means ensuring that the audience reached becomes conscious of a concept, here the EUTR or one of its components, but not necessarily fully grasping it or retaining the details. Proof of interaction with an audience regarding the EUTR, direct e-mail exchanges, chats or other interactive communication can be considered proof of awareness raising. Awareness raising includes having been reached. Building capacity of an audience means providing or improving skills and knowledge, thus enabling the audience to actively and autonomously use them. Proof of participation in a targeted, interactive activity for a closed audience like participation in a training course, seminars, conferences or meetings can be considered proof that capacity building has been achieved. Capacity building includes awareness raising and thus also reaching the audience.

Please use the form below to record details of particular actions/campaigns/events/emissions/press releases during the reporting period to increase awareness of the EUTR and/or the capacity to apply it. For each campaign fill in a new form throughout the reporting period.

1	D '.'	C			/ //		/ 1	1
	Description	or name of	action/	campaign	event/	emission	nress re	lease:
1	Description	of marine of	action	campaign/	CVCIII		press re	icasc.

Focus on Russia, Belarus and sanctions caused by the conflict in Ukraine. Especially wood pallets imported from Turkey.

- \*2 Which types of communication tools were used in this case to reach, raise awareness, or build capacity of the target audience(s)?
  - Training courses, seminars, conferences, meetings (counts as capacity building, awareness raising and reaching the
    participants)
  - Direct e-mail exchanges, chats or other interactive communication, contacts at fairs, inspections (counts as awareness raising and reaching the persons interacting)

$\odot$	Information emails, newsletters, flyers (counts as reaching the recipients)
•	Website, social media, publicly available webinars, downloadable information material (counts as reaching the users counted)
	TV, radio programmes (counts as reaching the estimated audience)
*3 Plea	se specify the topic (select all that apply):
	EUTR overall purpose, obligations, and implementation
<b>V</b>	EUTR traceability obligations
	EUTR due diligence obligation in general
<b>V</b>	EUTR specific risks and related risk assessment and/or mitigation measures
	Other EUTR related issues (please specify under 'Description')
*4 Plea	se specify the audience(s), which was/were targeted for reaching/raising awareness/building capacity:
	Operators of domestic timber/timber products (general)
<b>V</b>	Operators of imported timber/timber products/traders (general)
	Small and Medium Sized Enterprise operators/traders
	Federations of operators/traders
	Own staff, staff of other national authorities, judiciary
	Other EUTR Competent authorities
	Third country Competent authorities
	Civil society organisations/Scientific bodies
	Monitoring organisations
	General public/consumers
Please	specify the estimated/known number of individuals of the targeted audiences.
6 Ope	rators of imported timber/timber products/traders (general)

### II.II. Resources

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### II. Verification of compliance - context and implementation

### II.II. Resources for EUTR compliance verification and enforcement

The resources available for the verification of compliance and enforcement are key for ensuring the application of the EUTR and thus the reduction of illegally harvested timber or derived products being placed on the EU market and the improvement of traceability of timber throughout the supply chain in the EU. It is therefore important to understand, how much resources are at the disposal of the authorities implementing the EUTR and how much resources they need per compliance verification check. For a better understanding of the resources needed for compliance verification of operators placing imported timber/timber products, it is also important to understand, whether there are specific countries of harvest or origin, for which the verification of compliance with the EUTR it is particularly complex and thus resource-consuming.

### Resources available for compliance verification and enforcement

Please specify the staff and resources dedicated to EUTR implementation and enforcement over the reporting period. Please **only count staff with a strong focus on EUTR**, not additional support staff or customs staff, unless customs is one of the Competent Authorities.

*	1 Staff and budgets	dedicated to EUTR	implementation a	and enforcement for	domestic timber	and imported ti	mber
6	are:						

Separated

Combined

# For **domestic and imported timber combined** (including operators, traders and monitoring organisations, if relevant)

-,-	o what is the start's approximate combined total time spent on EOTK implementation/ emorcement?
	Provide as full-time equivalents (FTE), e.g. 10 part-time staff who each work 50%, and 50% of that time is spent on

\*6 What is the staff's approximate combined total time sport on EUTD implementation/enforcement?

EUTR = 2.5 FTE 2.3

\*7 What was the total annual budget for EUTR implementation and enforcement over the reporting period (e.g. travel costs, workshop costs, costs for sample analysis, costs for issuing penalties, legal fees etc., but excluding staff salary costs)?

15000	EUF

8 It is assumed that the implementation of the EUTR in relation to traders and monitoring organisations is included in the above. If this is not correct, please clarify this here:

### Resources needed on average for compliance verification per type of check

9 What is the **average time spent** on each type of check on operators placing **domestic** timber/timber products on the market (including preparation, transport, inspection onsite, follow-up, administrative procedure, but **not** including pursuing enforcement actions, preparation of replies to complaints and court cases)?

Purely desk based check can consist of **multiple** document reviews. Desk- and onsite check can consist of **multiple** document reviews and visits.

	Up to 1 day	1-2 days	3-4 days	1 week	Longer than 1 week
Purely desk based checks	•	0	0	0	0
Desk- and onsite checks	0	0	0	0	0

10 What is the **average time spent** on each type of check on operators placing **imported** timber/timber products on the market (including preparation, transport, inspection onsite, follow-up, administrative procedure, but <u>not</u> including pursuing enforcement actions, preparation of replies to complaints and court cases)?

Purely desk based check can consist of **multiple** document reviews. Desk- and onsite check can consist of **multiple** document reviews and visits.

	Up to 1 day	1-2 days	3-4 days	1 week	Longer than 1 week
Purely desk based checks	0	•	0	0	0
Desk- and onsite checks	0	0	•	0	0

11 What is the **average time spent** on each type of check on operators placing **unspecified** timber/timber products on the market (including preparation, transport, inspection onsite, follow-up, administrative procedure, but **not** including pursuing enforcement actions, preparation of replies to complaints and court cases)?

Purely desk based check can consist of **multiple** document reviews. Desk- and onsite check can consist of **multiple** document reviews and visits.

	Up to 1 day	1-2 days	3-4 days	1 week	Longer than 1 week
Purely desk based checks	0	•	0	0	0
Desk- and onsite checks	0	0	•	0	0

#### 12 What is the **average time spent** on each type of check on **monitoring organisations**?

Purely desk based check can consist of **multiple** document reviews. Desk- and onsite check can consist of **multiple** document reviews and visits.

	Up to 2 days	3-5 days	Longer than 5 days
Purely desk based checks	0	0	0
Desk- and onsite checks	0	0	0

# Resource-intensive compliance verification for certain Non-Voluntary Partnership Agreement countries (non-VPA countries)

13 For particularly resource intensive compliance verification of operators placing imported timber/timber products on the market, which are linked to the Non-VPA country of harvest or origin, from which the operator imported them, please indicate the name of the country/ies and the reason(s) for the particular resource intensity:

·	Country/ies of harvest or origin	Reason(s) for complexity (e.g. complex applicable legislation on country of harvest; language; documents not reliable due to corruption; processing country with no/low traceability to country of harvest)
1	Brazil	Different documents provided in different states. Verification online is cumbersome, partly due to language barrier, partly to lack of consistency of information sources.
2	Russia	Large quantities. Difficult to verify documents. Widespread corruption.
3	Ukraine	As RU
4	Peru	Difficult to verify documents. Widespread corruption.

# II.III. Voluntary Partership Agreement (VPA) countries

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### II. Verification of compliance - context and implementation

# II.III. FLEGT VPA countries – FLEGT VPAs contribution to the objectives of the EUTR (ref. EUTR Article 3 and 20(2))

This chapter gathers information on whether the FLEGT VPA processes leading to the conclusion and operation of VPAs are having beneficial effects on EUTR implementation and enforcement, e.g. because access to information on the applicable legislation, its implementation and enforcement, and on supply chains in these countries becomes more transparent in the course of negotiations and implementation of the Legality Definitions and Timber Legality Assurance Systems of the VPAs. This would be reflected in a reduced complexity of checks. Another important aspect is whether there is evidence that illegal trade from these countries is reducing, indicated by a reduction of the perceived risk of illegally harvested timber and derived products originating in these countries over time. Relevant information is also gathered in other sections of the national report and will be taken into consideration during analysis.

1 What level of risk does the Competent Authority assign to each of these VPA countries in their risk based planning?

	high risk	medium risk	low risk	risk not assessed	no imports
*Cameroon	0	0	0	•	0
*Central African Republic	0	0	0	•	0
*Côte d'Ivoire	0	0	0	•	0
*Democratic Republic of the Congo	0	0	0	•	0
*Gabon	0	0	0	•	0
*Ghana	0	0	0	•	0
*Guyana	0	0	0	•	0
*Honduras	0	0	0	•	0
*Indonesia (non-FLEGT HS codes only)	0	0	•	0	0
*Laos	0	0	0	•	0
*Liberia	0	0	0	•	0
*Malaysia	0	•	0	0	0
*Republic of the Congo	0	0	0	•	0
*Thailand	0	0	0	•	0

* Vietnam
-----------

2 Please asses the **complexity of checks** relating to imports from below VPA countries. To do so, **compare** the average time spent on checks of these countries to the average time spent on checks relating to non-VPA countries which are considered to be of the same risk level and estimate the related **workload**:

	More time required	Similar time required	Less time required	Unknown (please explain in comment box)
* Cameroon	0	•	0	0
*Central African Republic	0	•	0	0
* Côte d'Ivoire	0	•	0	0
* Democratic Republic of the Congo	0	•	0	0
* Gabon	0	•	0	0
* Ghana	0	•	0	0
* Guyana	0	•	0	0
* Honduras	0	•	0	0
* Indonesia (non-FLEGT HS codes only)	0	0	•	0
* Laos	0	•	0	0
* Liberia	0	•	0	0
* Malaysia	0	•	0	0
* Republic of the Congo	0	•	0	0
* Thailand	0	•	0	0
* Vietnam	0	•	0	0

# II.V. Planning – identification of the duty holders

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### II. Verification of compliance - context and implementation

# II.V. Planning –identification of the duty holders (ref. EUTR Article 10 and EUTR Article 8 (4))

In view of the great number of operators placing timber/timber products on the market, the EUTR underlines the need of effective planning. Before establishing a check plan, the Competent authorities need to estimate, how many operators placing domestic and/or imported timber/products on the market and know, how many monitoring organisations are active in their country.

Estimation of the number of operators	
*1 In your estimate of the total number of operators, does the Competent authority differentiate between operators placing domestic and imported timber on the market? <ul> <li>Yes</li> <li>No</li> </ul>	
*2 Please provide an estimate of the number of operators who have been placing <b>domestic</b> timber/timber products the market over the reporting period:	on
Operators within the meaning of the EUTR are natural or legal persons that place timber or timber products on the intermarket in the course of a commercial activity for the first time (Article 2 of the EUTR). For timber harvested in the intermarket, an entity becomes an operator when it harvests the timber for distribution or use through its own business. (Given the EUT imber Regulation of 12 February 2016, pp. 3 and 18f.). Data on forest owners and entities, where acquired the right to harvest standing trees, and which actually harvested timber for their own commercial purpose a given year may not be readily available in all Member States. It is therefore acceptable to use available data, e.g. on sowners or timber harvesting companies as a proxy. However, these data should not be 'corrected' ex ante by excluding from the number of potential operators some that are unlikely to be commercially active, e.g., natural persons.	ternal uidan hich ses in fores
28000	
*3 Specify the basis of the estimated number of operators placing <b>domestic</b> timber/timber products on the market:  Number of registered forest owners  Number of registered logging companies  Number of domestic operators in a register established to implement the EUTR  Number of all operators in a register established to implement the EUTR (no differentiation)  other	

\*5 Please provide an estimate of the number of operators placing **imported** timber/timber products on the market over the reporting period:

Operators within the meaning of the EUTR are natural or legal persons that place timber or timber products on the internal market in the course of a commercial activity for the first time (Article 2 of the EUTR). For timber harvested outside the EU, an entity becomes an operator when it imports timber or timber products into the EU. (<u>Guidance document for the EU Timber Regulation of 12 February 2016</u>, p. 3). Data on importers importing in the course of commercial activity may not be readily available in all Member States. For the purposes of reporting and to ensure comparability, where the exact number of importing operators cannot be established, please base your estimation on the total number of importers of

# II.VI. Planning - Risk-based approach

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### II. Verification of compliance - context and implementation

# II.VI. Planning - Risk-based approach for planning of checks on operators (ref. EUTR Article 10)

The criteria used in the risk-based planning determine the efficiency and effectiveness of the identification of operators meeting one or more risk criteria. Operators fulfilling one or more criteria are considered at risk of breaching the EUTR. For the establishment of the check plan, the Competent authority needs to dispose of additional criteria for identifying the operators to be included in the actual check plan. The better these criteria serve to identify those operators with the highest risk of non-compliance, the higher are the chances that the Competent authority can take measures to prevent that timber with a non-negligible risk of having been illegally harvest or products derived therefrom are placed on the market, and if necessary, to impose effective, dissuasive, and proportionate penalties.

1 What is the basis for the establishment of the risk based planning at the national level?

	EUTR Art. 10	National law/Regulation/Circular	Other
*Operators - domestic timber/ timber products			V
*Operators - imported timber/ timber products	V	V	

2 P	lease specify other:
	No risk based planning for domestic timber

\*3 For the risk-based planning, the Competent authority differentiates between operators placing domestic timber /timber products or imported timber/products on the market:

Νo
•

\*4 Which **criteria are used in the preparation of the risk based planning** of checks of operators placing **domestic** timber /timber products on the market, to identify those for which there is a risk of breaching the EUTR? Select all that apply:

Operator with antecedents (e.g. prior breaches of the EUTR or other wood/wildlife trade laws, applicable forest laws,
accounting, tax, social security, or customs laws)
Type of timber product (e.g. fuel wood)
Type of business (e.g. forest owner, timber mill)
Area/Region of harvest (e.g. areas/regions subject to high levels of corruption or illegal logging)
Type of forest of harvest (e.g. primary/natural forest, Natura 2000 or national nature protected area, biosphere park)
Timber types (e.g. broad leaf) or species (e.g. oak)
Size of forest property of harvest
High volume/weight of timber/timber products placed on the market
High value of timber/timber products placed on the market
Unusual value/volume ratio of timber/timber products placed on the market

Which criteria are used in the preparation of the risk based planning of checks of operators placing imported ber/timber products on the market, to identify those for which there is a risk of breaching the EUTR? Select all tily:  Operator with antecedents (e.g. prior breaches of the EUTR or other wood/wildlife trade laws, applicable forest laws accounting, tax, social security, or customs laws)  'Type of limber product (e.g. composite wood)  Type of business (e.g. builder's merchant, boatyard)  'Country of harvest (e.g. countries with high corruption, internal armed conflicts, track record of illegal logging, explains)  Area/Region of harvest (e.g. primary/natural forest, national nature protected area, biosphere park)  'Timber types (e.g. tropical, broad leaf) or species (e.g. teak)  Complexity or type of supply chain (e.g. trade involving transit or processing countries)  High value of timber/timber products placed on the market  High value of timber/timber products placed on the market  Unusual value/volume ratio placed on the market  Other  Please specify other:  Forest loss cf. # II.VII Checks planned and performed in the reporting period

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### II. Verification of compliance - context and implementation

### II.VII Checks planned and performed in the reporting period

The Enforcement of the EUTR, i.e. taking the effective, dissuasive and proportionate measures against the different duty-holders (operators, traders and monitoring organisations) is only possible, when compliance is verified by the authorities. For operators, the efficiency of compliance verification is supported by the risk based planning of checks. Information on the operators identified as fulfilling one or more risk criteria and thus being at risk of breaching the EUTR and the operators planned to be checked allows to appreciate the challenge faced in relation to the resources and expertise needed and available. The relationship of operators planned to be checked versus operators checked and checks performed informs on possible complications, which cannot be planned, such as substantiated concerns, issues with accessing the premises or documentation needed, or complications like the need to carry out scientific testing. The type of checks performed and the declared countries of origin and types or timber/timber products provide valuable additional information for a better understanding the size and complexity of the compliance verification task.

The insertion of the number zero (0) in reply to any of the questions in this Tab requires an explanation in the Comment box.

For countries, which do not distinguish between operators placing domestic or imported timber on the market, '0'

shoi	uld be introduced in questions 1. and 2. and the combined numbers should be introduced under questions 3. and 4.

# III.I Remedial actions and immediate interim measures

Fields marked with \* need to be filled in before the form can be submitted to the next level.

### III. Enforcement - context and implementation

#### III.I Remedial actions and immediate interim measures (ref. EUTR Article 10(5))

The enforcement of the EUTR requires Member States to put in place national measures which provide a robust framework to be able to take effective, dissuasive and proportionate enforcement action and sanction different duty-holders (operators, traders and monitoring organisations) for infringements of the Regulation. The information on the legal frameworks used, the range of potential national penalties and their uppermost levels provide valuable information to assess the consistency of potential enforcement actions across the EU. This section is structured by duty-holders' obligations under the EUTR (prohibition to place illegal timber on the market for operators; due diligence and reporting obligations for operators and monitoring organisations; traceability for traders, and reporting obligation for monitoring organisations) and the provisions for remedial actions or similar and immediate interim measures, which are applicable in case of or to prevent infringements to each obligation.

1 Please specify for which breaches of the EUTR Notices of remedial actions or similar measures, and Immediate Interim Measures (ref. EUTR Article 10(5)) can be applied in your country:

		11 0	
	Notice of remedial action in cases of breaches of:	Other national measures which are similar to Notices of remedial action in cases of breaches of:	Immediate interim measures [1] in cases of breaches of:
* Prohibition (operators)	<b>V</b>		
*DD obligation (operators and monitoring organisations)	<b>▽</b>		
*Traceability obligation (operators/ traders)	<b>▽</b>		
*Reporting obligation (monitoring organisations)	<b>V</b>		V

<sup>[1]</sup> These are measures that can be issued or applied with immediate effect to prevent trade in contravention of the EUTR and may be of temporary nature, until penalties in line with Article 19 are applied.
